

GAMS

GAMS-RELATED COURSES AND WORKSHOPS IN 2018

Whether you are new to GAMS or already an experienced user looking to deepen or expand your knowledge in a certain area – take a look at our diverse list of GAMS-related courses. Learn advanced, state-of-the-art techniques in a focused and interruption-free setting using the professional's choice in modeling software – GAMS. Domain experts will be teaching the following courses at locations worldwide:

April

Vienna, Austria

- Advanced Analytics: Modeling and Optimization with GAMS

June

Dillon, Colorado, USA

- Basic GAMS Modeling - An Introductory Class
- Advanced GAMS Modeling

Vienna, Austria

- Energy and Power System Modeling in GAMS

Prague, Czech Republic

- Practical General Equilibrium Modeling with GAMS
- Advanced Techniques in General Equilibrium Modeling with GAMS
- Energy and Environmental CGE Modeling with GAMS
- Overlapping Generation General Equilibrium Modeling with GAMS

September

Vienna, Austria

- Advanced Analytics: Modeling and Optimization with GAMS

November

Weisenheim a.B., Germany

- Modeling and Optimization with GAMS (basic)
- Modeling and Optimization with GAMS (advanced)

December

Weisenheim a.B., Germany

- Modeling and Optimization with GAMS - Advanced Mathematical Optimization

Continuous

- Online Practical General Equilibrium Modeling with GAMS
- Online Advanced Techniques in General Equilibrium Modeling with GAMS
