

Academic Price List

This price list includes the required Base Module and a number of optional solvers. The prices shown are for an unrestricted, perpetual single named user license on a specific platform ([Windows](#), [Linux](#), [Mac OS X](#), [Sun Sparc Solaris](#), [IBM Power AIX](#)).

This list applies only for teaching and academic research at degree granting institutions.

Prices	
	Named Single User License (USD)
Base Module	
GAMS Base Module (required)	640
Solvers	
GAMS/ALPHAECP ¹	320
GAMS/ANTIGONE ¹ (requires presence of a GAMS/CPLEX and a GAMS/SNOPT or GAMS/CONOPT license, includes GAMS/GLOMIOO)	640
GAMS/BARON ¹ (for details please follow this link)	640
GAMS/CONOPT	640
GAMS/CPLEX	1,280
GAMS/DECIS ¹ (requires presence of a GAMS/CPLEX or a GAMS/MINOS license)	1,920
GAMS/DICOPT ¹	320
GAMS/GLOMIOO ¹ (requires presence of a GAMS/CPLEX and a GAMS/SNOPT or GAMS/CONOPT license)	320
GAMS/IPOPTH (includes HSL-routines, for details please follow this link)	640
GAMS/KNITRO	640
GAMS/LGO ²	320
GAMS/LINDO (includes GAMS/LINDOGLOBAL with no size restrictions)	1,920
GAMS/LINDOGLOBAL ² (requires presence of a GAMS/CONOPT license)	320
GAMS/LOCALSOLVER	1,920
GAMS/MINOS	640
GAMS/MOSEK	640
GAMS/MPSGE ¹	640
GAMS/MSNLP ¹ (includes LSGRG2)	320
GAMS/PATH (includes GAMS/PATHNLP)	640
GAMS/SBB ¹	320
GAMS/SNOPT	640
GAMS/XPRESS	1,280
Solver-Links	
GAMS/CPLEX-Link	640
GAMS/GUROBI-Link	640
GAMS/LOCALSOLVER-Link	640
GAMS/MOSEK-Link	320
GAMS/XPRESS-Link	640

¹ Performance will depend heavily on the choice of the selected sub-solver(s).

² Maximum model size: 2000 constraints and 3000 variables

General Information

The GAMS Base Module includes the [GAMS Language Compiler, GAMS-APIs, and many utilities](#). All solvers are included in the system, but without a valid license, size limitations apply. The [GAMS End User License Agreement](#) governs the use of the software, and is available on our website.

Solvers

- A **GAMS/Solver** connects the GAMS Base module to a particular solver and includes a license for this solver to be used through GAMS. It is not necessary to install additional software.
- A **GAMS/Solver-Link** connects the GAMS Base Module to a particular solver, but does not include a license for the solver. It may be necessary to install additional software before the solver can be used. The use of the GAMS/Solver-Links, including the Open Source Links to commercial solvers requires confirmation that the user has a valid license agreement for use of the current version of the solver library, and that the use of the solver will comply with the terms of that license agreement.
- Each solver has specific capabilities and strengths. Detailed information about the solvers, the availability on the supported platforms, and the model types they are capable of solving are available at [this link](#). If you are not sure which solver to choose, please contact us for a free evaluation license.

Available Licenses

GAMS licenses are based on the number of GAMS users within an organizational unit. We do not consider concurrent uses, but rather count the number of individual people that will use GAMS on a routine basis as part of their jobs or research. A GAMS user is welcome to install GAMS on more than one computer - assuming that only one of those computers will be used at a time.

- **Single User Licenses:** Single User Licenses are restricted to an individual person - the license file will show the name and the email address. We provide multi-copy discounts for additional single user licenses on the same platform: 30% discount on the original price for the second copy and 50% discount for the third and following copies of the same modules, if the other single user licenses are under maintenance.
- **Multi-User/Department (MUD) Licenses:** Multi-User/Department (MUD) licenses allow several users to run the licensed software on one or more computers with the same operating system. MUD licenses are available to departments, work-groups, or project teams where the license is centrally administered. The license file will show the name and the email address of the license administrator.

License	Users	Price
small MUD	up to 5	twice the price of a single user system
medium MUD	up to 10	three times the price of a single user system
large MUD	up to 20	four times the price of a single user system

- **Cross Platform Licenses:** Any license can be made a cross platform (generic) license at an additional charge of 50% of a single user price for all licensed modules.
- **Additional Available License Types:** Please contact us to discuss any special licensing needs (e.g. larger MUD, or machine-based licenses).

Packages

- **NLP Package:** CONOPT, IPOPTH, KNITRO, MINOS, SNOPT are discounted 25% when two or more are purchased.
- **GLOBAL Package:** ANTIGONE, BARON, GLOMIQO, LGO, LINDOGLOBAL are discounted 25% when two or more are purchased.

Maintenance and Support

The license fee covers a perpetual license to use the software. Maintenance and support (M&S) is free during the first year after the purchase of the software. After the first year the optional annual fee for M&S is 20% of the list price for all licensed modules. M&S allows free updates, adding components, platform switching without additional charge, and multi-copy discounts on the same platform. If the user does not purchase M&S for some period and chooses to purchase it at a later date, we will charge the prevailing annual maintenance and support fees for the periods that were not covered.

Course Licenses

We provide course licenses at no charge to GAMS users with a maintained license.

Purchase and Delivery

- **Delivery and Documentation:** The software is available for [download on the GAMS web site](#) and we will deliver the license file via e-mail. The software includes the documentation in electronic form.
- **Prices and Regulations:** All prices are stated in US Dollars and do not include applicable taxes and tariffs. We follow the policies and regulations of the [Bureau of Industry and Security](#).
- **Ordering:** Please contact us for more information or a quote.
